DETAILED ACTION

Drawings

Figure 1 should be designated by a legend such as --Prior Art-- because only that which is old is illustrated. See MPEP § 608.02(g). Corrected drawings in compliance with 37 CFR 1.121(d) are required in reply to the Office action to avoid abandonment of the application. The replacement sheet(s) should be labeled "Replacement Sheet" in the page header (as per 37 CFR 1.84(c)) so as not to obstruct any portion of the drawing figures. If the changes are not accepted by the examiner, the applicant will be notified and informed of any required corrective action in the next Office action. The objection to the drawings will not be held in abeyance.

Claim Objections

Claims 3-6 and 10-13 are objected to because of the following informalities: Claims 3-6, Line 2, "first, second" should be --first and second--; Claims 10-13, Line 1, "first, second" should be --first and second--. Appropriate correction is required.

Claim Rejections - 35 USC § 112

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 7, 9, and 14 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Art Unit: 3745

Claims 7 and 14 are indefinite because they recite “a third spool which is openably and closably installed in a flow path of a supply side of the option tool spool” which, conflicts with the recitation of “a poppet valve which is openably and closably installed in a flow path of a supply side of the option tool spool” in claim 1 at lines 13-14, and the specification does not disclose the cooperative use of both the “poppet valve” and “third spool”.

Allowable Subject Matter

Claims 1-6, 8, and 10-13 are allowed.

Claims 7, 9, and 10 would be allowable if rewritten or amended to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action.

Prior Art

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. U.S. Patents 5469703 and 6745564 disclose hydraulic circuits, but lack the “first spool” for maintaining a constant pressure difference.
